Expected Tuition/Student Fees – NSW Smart & Skilled

The NSW Government sets the qualification prices and student fees for government-subsidised training under Smart and Skilled.

The student pays a portion of the qualification price (known as the "student fee"). The balance of the qualification price (known as the "subsidy") is paid by the NSW Government directly to the training provider.

Fees are confirmed after a quote is given by the NSW Government.

Fees may be lower than this – based on units completed (Credits) from previous qualifications.

You are able to complete multiple qualifications in NSW at the same time. Your fees on the second qualification will be reduced to match the number of units you need to complete. Contact us for a listing of qualifications that you may be interested in completing and the associated pricing.

All Fees are calculated in $AUD
